epo.org

People D01

Focusing on sustainable engagement, attracting and developing talent, and supporting mobility and flexibility in physical and virtual homes and providing engaging workspaces.

Technologies D02

Elevating the EPO's capabilities with cutting-edge technologies that build a resilient infrastructure, drive digital transformation in the Patent Granting Process and corporate services, deliver excellence and leverage new technologies with the highest standards of IT security.

D05 Financial Sustainability

Safeguarding the EPO's financial sustainability in uncertain times by monitoring the coverage of its liabilities and implementing measures to improve them.

High-quality, timely products and services D03

Delivering excellence throughout the Patent Granting Process (PGP) and improving on the high-quality and timeliness of its products and services.

D04 Partnerships

Collaborating closely with partners to increase quality and enhance the accessibility of the patent system for all, ensuring that innovation flourishes and that the patent system reaches its full potential for society.

Strategic Plan 2028
